

BLUE

The intent of the BLUE Club is to provide a platform for passionate students who are looking for a way to get involved in the community. In the past, students have been limited to traditional activities like the Blue Team, but the BLUE Club provides a new and exciting way for students to get involved. The BLUE Club is a student organization that is dedicated to providing a platform for students to express their passion for exploration and creativity to my own, and I would highly recommend others with such a passion to apply.

-- Ari Singer-Freeman

We're excited to announce BLUE. The first of its kind, this innovation-themed learning program will allow you access to a massive design space with creation tools and an open collaborative workspace to be inspired and build or join a venture.

Who We Are:

The mission of this community is to inspire students to shape an innovative and collaborative residential community using physical and virtual tools to engage in self-discovery, build diverse connections, and accelerate ideas to reality.

Students work to bring their ideas to reality, through the network of BeAM maker spaces and the support of BLUE.

BLUE offers spaces for residence to meet and share ideas. They can then transform those ideas into tangible goods.

We all need to live and learn with an innovative mindset ? join us to begin that journey! Learn more about the space and our offerings at BlueatUNC.com [1].

Build Together. Innovate Collectively. We. Are.

Potential offerings include:

- UNC's undergrad innovation club Carolina Think meetings
- BeAM Maker workshops
- UNC innovation speakers
- Faculty research reverse pitches
- Career planning resources
- Student + Entrepreneur-in-Residence mentors
- Community service offerings
- Applied science co-curricular programs
- E-Minor creation labs
- Launch Chapel Hill acceleration night
- Carolina Challenge venture pitches
